KICKING GOALS

Unsterile Custom Implants

Robyn Williams & Sandie Lenehan

There has been a growing clinician expectation at the GCHHS for CSSD to process any and all unsterile custom implant

without an agreed risk stratified Governance process in place.

A detailed review has been conducted including;

Tracking capabilities

TGA expectations on processing unsterile custom implants

Risk

This then lead to the evolution of a broader team to develop policy, procedure and approval processes moving forward plus, the development of a comprehensive resource looking at previous practice and habit.
